Web Scrapping Intern

Repaper consultants

Social media and Research intern

Certifications

- Frontend web designing/JavaScript
 - Machine learning with python
-

Projects

- **AI-Based Cybersecurity System for Metaverse Applications**

Developed an AI-driven cybersecurity system designed to detect anomalous user behavior within metaverse environments. The system analyzes real-time behavioral data such as login patterns, activity frequency, and session behavior to identify potential security threats. Implemented an anomaly detection model using the Isolation Forest algorithm with Scikit-learn to distinguish between normal

- **PostHub Cloudinary App – Full Stack MERN Application**

Developed a full-stack blog management application using MongoDB, Express.js, React.js, and Node.js. Implemented CRUD operations, image uploads using Cloudinary and Multer, RESTful APIs, responsive UI design, and MongoDB data persistence. Deployed the frontend and backend using modern cloud hosting platforms.
